Jarmel Kizel Architects & Engineers Expands The Team

Jarmel Kizel Architects & Engineers, Inc., a full-service architecture and engineering firm based in Livingston, NJ, announces new team members.

Alan Brandies joins the firm as Vice President of Client Relations and Business Development. He brings over two decades of commercial real estate experience to Jarmel Kizel. Alan spent over 20 years with a successful development company and more recently for the last 7 years was responsible for building strong client relationships with a central NJ engineering firm. He plans to use his vast network to increase Jarmel Kizel's client base. In addition to Alan, the firm has also added several design professionals in 2017. Liz Bermek, PE, joins the Civil Engineering team. The architectural studio's new hires include Peter Yeh, RA, Irene Farag, RA, and Karolina Kopiczko. Not to be outdone, the MEP department added Frank Woznica to the team as an electrical designer.

About Jarmel Kizel Architects and Engineers, Inc.

Headquartered in Livingston, N.J., Jarmel Kizel Architects and Engineers, Inc. is a full-service integrated architecture, engineering, interior design and real estate development consulting firm serving a distinguished client base of commercial and residential real estate companies, and a myriad of corporations throughout the Northeast. The firm provides its clients with a single source of accountability for all of their facility needs from architectural design, interior design, structural, MEP and civil engineering, development advisory services and product procurement management. For more information, contact the company's Livingston headquarters at 973.994.9669 or visit www.jarmelkizel.com.
